STATEN ISLAND NOTES.

The Port Richmond Trustees have adopted a resolution to the effect that they will call a special election to let the people decide whicher the village shall build its own water-works, unless the Staten Island Water Supply Company will enter into a contract to supply private consumers at reduced rates. The company has answered the resolution by seating that it will not adopt the acheeule of rates as proposed by the Trustees.

Trustees.

The Rapid Transit Railroad Company has signified its intention of moving the West New Brighton passenger station to the site upon the hill next to Kerr's drug store, in order to make from for a freight landing at that point.

Anning A. Pratt, of Port Richmond, is at

(Continued from First Page) Behrens stands condemned. Even is he had not volunteered to superintend the construction of the building, as he

said he did, it was his duty to do so anyhow. Yet, with cool indifference, he swore before the Coroner that not until Wednesday last, when he saw it in the newspapers, did he know that the concrete under the centre iron pillar was only twelve inches thick.

He admitted that he had been down

watching the excavations; that he had been in the building many times while it was going up; that he had seen the concrete, but "had never laid a rule on it" to measure its thickness. He said William E. Hopkins, of Low Point, an it" to measure its thickness. He saw ex-attendant of the Matteawan State that Greenwich stone had been substituted for granite, but made no protes because he thought it "better."

construction. Although he had been four fellow-convicts to escape from Mat- looking at them he coolly announced

But in the questions asked by coun York Central Railroad, and Detective Garvey, of the American Express Com-information was opened up, which if followed and pursued, may stamp Behiens's conduct as even worse than gross this:

Behrens had a representative in the building named Yondel, who superinof valuable diamonds and jewelry last building named Yondel, who superin October from a Mrs. Haswell, of Troy. man scught Yondel one day and said Behrens had told him not to lay mor than twelve inches of concrete instead of eighteen. Yondel would not believe it. According to the story, he ran to Behrens and asked him if he had giver a memorandum in a ledger of the oc

All this Behrens denies, but Yondel will probably be put on the stand to tell his side of it, as he too is implicated. The penuriousness of Ireland, the ewner, is admitted to be in a large measure responsible for the disaster. city, having been connected with vari-ous charitable enterprises. Sh took a great interest in Perry when he was a erry. It had been in the possession of member of the Y. M. C. A. here, and his family for generations. He knew of the old sand hill that used to be there and the old dry well or cistern away under the ground. The cistern was reached and Parker laid the concrete for the main pillar on part of the cistern wall. He did not take the

trouble to dig below it. Slipshod Methods.

An attempt will be made to show that everything about the building was put up in a loose manner; that iron cross girders were not riveted to the upand he was as good as they make 'em-Tim's rights; that the iron was faulty and orts was 'working the corners.' Since he has would in itself have caused the collapse. forts was "working the corpers." Since he has become a member of Nick Young's staff, however. Also that the floors were overweighted. Tim has changed his views about pitching, and every ball has to split the plate before he will for the contract, and it was awarded call a strike. What a howl Timothy would have to Parker by Ireland after the former set up had he ever gotten the deal he gave Clarke had knocked off \$4,000. That part of the theory was ably summed up by As-sistant District-Attorney McIntyre and That was a decidedly narrow hole that the Coroner Fitzpatrick at the end of the

"Ireland squeezed Parker pretty well, didn't he?" Mr. McIntyre said to Witness Behrens, and when the latter nodded, the Coroner added:

"Yes, and he squeezed the life out of the unfortunate victims whose deaths

we are investigating."

Mr. McIntyre was not in favor of long examinations before the Coroner. He wanted to rush matters before the Grand Jury and bring in indictments.
It is probable that the Grand Jury will not take hold for a week or so, of the Coney Island so will not take hold for a week or so, follows.

In the event of indictments, they will follows.

GOSSIP OF THE TURF

Brandywine is evidently a had horseems to "blow up" the minute anything

but of course you can't help that. Ain't you kin of his?"
"No. sir, I'm not. Will you—"
"Must be," declared the old man, positively. "Same name—Jones—Jones, Yes, his name was Jones—no, come to think of it I do believe his name was Smith—Lazy Bill Smith Why, course it was, Maybe your mother's maiden name was Smith. That would account for the whiskers, if you favor the mether's side of the family. I don't mean that your mother had whiskers but—""Will you give me my mail" demanded Jones.
"Oh, yes, certainly, No, there's nothin' here for Clinton Smith."
"My name is Jones, I told you."
"That's funny. You're the dead image of old Bill Smith. No, there's no mail for Jones."
The old man confided to the loungers in the store after Jones had departed that he believed that man's name was Smith and he had got ashamed of it because it was common and had changed it to Jones.

(From the Washington Post I recently returned from a visit to the works on the great lakes between 126-troit and Lake Superior, is very enthusia astic over what he saw. He declares that the most important work in the world is under the dire tion of Col. Post The lock at Sault Ste. Marie is the largest in the world, and when completed will allow vessels of twenty-one feet draught to pass through The General of commerce. Vessels waited at the Sault Canal for hours while Gen. Craighill was there, and could not be accommodated. When the new lock and canal is completed, the larger hoats will make use of the anglest craft can use the old tock witch will greatly facilitate navigation. It is also a gratifying fact to tien. Craighill that the work at the canal and the improvements looking to a deep-water mark. The Canadians are building a lock or Buffelo is being done within the estimates.

The World reporter rode about in it and guided it as Mary guided her lambeate the work will as Mary guided it as Mary guided her lambeate the work will see the complete that the work at the canalest of the solution of the serious documents to sking to a deep-water more. The new woman is bad enough by herself. As a composite creation she as terrible.
